PROJECTS

PortFolio WebPage 🔗

2024

Developed a highly responsive and interactive portfolio website using React JS and Tailwind CSS. React JS ensured a seamless user experience with dynamic components, while Tailwind CSS provided efficient and customizable styling for a modern, professional appearance.

Gemini AI Clone 🔗

2024

Implemented Gemini AI's sentiment analysis and natural language processing capabilities within the application, utilizing the Gemini API for seamless integration. Integrated basic web technologies for user-friendly interaction.

Weather Forecasting 🔗

2024

Crafted a dynamic weather forecasting React app utilizing Tailwind CSS for sleek styling and Bootstrap for enhanced UI components. Leveraged API fetching for real-time weather details and location capturing, offering users accurate and up-to-date forecasts.

Movie Streaming Website - Academic Project

2023

Movie streaming site utilizing web technologies, Bootstrap icons, PHP for user validation and data insertion, SQL for database management, and JSON for data exchange.
